Product Details

Any good haircare routine should include not just a shampoo, but a conditioner. Conditioner is designed to help make your hair more manageable and soft. Depending on the formula, it can offer a range of other benefits too, such as hydration and gentle scalp care. We recommend picking a sulfate-free conditioner that works for all hair types and features beneficial ingredients.

CeraVe Gentle Hydrating Conditioner is a gentle formula with [three essential ceramides](#), hyaluronic acid, and [niacinamide](#). It was developed with dermatologists to pair with our Gentle Hydrating Shampoo. Used together, they cleanse without disrupting the skin barrier, leaving hair feeling healthy and soft. The conditioner, which is suitable for all hair types (including curly hair and color-treated hair), is pH-balanced, [non-comedogenic](#), phthalate-free, sulfate-free, paraben-free, fragrance-free, allergy-tested, and suitable for use on sensitive scalps.

Key Features & Benefits

Gentle on Scalp and Hair

Allergy-tested and suitable for sensitive scalps

Does Not Disrupt the Scalp Barrier

Gently cleanses the scalp and hair, removing buildup without stripping away moisture

Suitable for All Hair Types

Can be used on all hair types and curl patterns, as well as color-treated hair

Leaves Hair Feeling Soft and Nourished

Hair feels healthy and soft after use

Key Ingredients

Ceramides

A key component of your skin barrier, which is essential for keeping moisture in and harmful elements out.

Hyaluronic Acid

A naturally-occurring substance that plays a key role in maintaining skin's moisture balance.

Niacinamide

A form of vitamin B3, which helps calm skin.

Tips

Avoid direct contact with eyes. If contact occurs, rinse thoroughly with water.

Frequently Asked Questions

DOES CONDITIONER HYDRATE YOUR HAIR?

Conditioner has a number of benefits. It can help make your hair more manageable and boost shine. It also can help provide moisture and hydration, depending on the formula. If the latter is what you're seeking, we recommend looking for a conditioner with ingredients known for their hydrating benefits. CeraVe Gentle Hydrating Conditioner, which features niacinamide and hyaluronic acid, is a good option for all hair types.

CAN YOU USE CERAVE CONDITIONER ON COLOR-TREATED HAIR?

CeraVe Gentle Hydrating Conditioner is suitable for color-treated hair, as are the rest of the products in CeraVe's haircare collection.

Pair our sulfate-free conditioner with the CeraVe Gentle Hydrating Shampoo to round out your shower routine. Other products that can be beneficial include leave-in conditioners, heat protectants, and hair oils.

DOES CERAVE GENTLE HYDRATING CONDITIONER HAVE SULFATES OR PARABENS?

If you're seeking a sulfate- and paraben-free haircare system, our Gentle Hydrating Shampoo and Conditioner are great options. Both formulas are free of sulfates and parabens, as well as fragrance and dyes.

CAN YOU USE GENTLE CONDITIONER EVERY DAY?

Depending on your hair's needs, you can use a gentle, fragrance-free conditioner every day. But you'll want to look for a formula, like CeraVe Gentle Hydrating Conditioner, that's suitable for daily use. Some formulas may be heavier and only meant for use a few times a week or month, so pay attention to your product labels.

Note: The rest of CeraVe's haircare collection, which includes the CeraVe Anti-Dandruff Hydrating Shampoo, CeraVe Anti-Dandruff Hydrating Conditioner, and CeraVe 2-in-1 Anti-Dandruff Hydrating Shampoo and Conditioner, can be used daily, too.

DOES CERAVE GENTLE HYDRATING CONDITIONER CONTAIN METHYLISOTHIAZOLINONE?

Methylisothiazolinone (MIT) is a preservative used in some cosmetics, but you won't find it in any CeraVe hair formulations.

I was able to try both the shampoo and conditioner in this line. To start, I have combination type hair. Some days it is dry and some days it will get oily quickly. I like having a hydrating shampoo as for some reason my hair reacts well to it and even helps with my oils. The shampoo really does not have much of a smell. It has a very, very faint clean (almost like a pool) smell. It is a little runny but still lathers nicely. It felt great on my scalp and left my hair feeling soft and clean. The conditioner had a slight chemical smell. It was not strong and also very faint. I could not smell anything once applying it to my hair. It has a decent thickness and did not weigh down my hair. The combination of the two left my hair feeling and looking great. I
