Your eyes may be the supposed window into your soul, but let's not overlook the communicative power of your cheeks. A rosy flush instantly can give skin a healthy, youthful appearance. It says, "I'm well-rested and have ventured outdoors recently." Of course, sometimes you aren't well-rested, or your natural color ends up covered by [foundation](#) and powder. That's why blush makeup is a must. It allows you to quickly and easily fake a subtle (or bold, if you prefer) flush.

A sweep of blush across the apples of your cheeks can instantly perk up your look. Just that small pop of color can truly be a game-changer. At NYX Professional Makeup, we offer a range of face-brightening pinks, peaches, mauves, and more, including options for all skin tones. Discover your "my-cheeks-but-better" blush color or sport a different shade every day depending on your makeup look and mood. There's [sparkling gold](#) to coordinate with metallic eyes, [warm bronze](#) to complement a summertime fit, and [reddish orange](#) to match a fiery mood—just to name a few of the possibilities.

Your choices don't end with color. Pick between matte blush and shimmer blush, as well as cream blush and powder blush. When you want to embrace your glamorous side, swipe on a shimmery shade of [Sweet Cheeks Creamy Powder Blush Glow](#). You'll love the glowing, flushed-face effect the silky powder creates. On days a matte formula will better complement your look, reach for the sparkle-free variety of [Sweet Cheeks](#). It has the same super-smooth texture minus the shimmer. As for cream blush options, try our Wonder Stick Blush. The dual-ended blush colors, shapes, and blends—all in two easy steps—to leave you with an effortless flush. For control over getting the exact look you're after, we recommend the buildable [Soft Cheek Tint](#), which has a creamy, whipped consistency and provides a natural finish. The bottom line is: No matter your desired finish or formula, we have a blush for you.
