CeraVe's Anti-Dandruff products stand out because they combine proven anti-dandruff ingredients with moisturizing and skin barrier-repairing ingredients like ceramides and hyaluronic acid. Most other dandruff shampoos focus solely on reducing flakes, but CeraVe goes a step further by also nurturing the scalp, ensuring it stays hydrated and less prone to irritation.

Product Details

Managing dandruff can sometimes feel overwhelming. One way to simplify your anti-dandruff routine is to opt for a 2-in-1 dandruff shampoo and conditioner. We recommend looking for a sulfate-free formula that cleanses without stripping away hair's moisture.

CeraVe 2-in-1 Anti-Dandruff Hydrating Shampoo and Conditioner is clinically tested to help eliminate flakes and reduce itching and irritation.* Formulated with 1% pyrithione zinc, [three essential ceramides](#), niacinamide, and [hyaluronic acid](#), it gently cleanses the scalp and hair. This multitasking dandruff shampoo and conditioner combo was also developed with dermatologists and is suitable for all hair types, including those with curly or color-treated hair. It's pH-balanced, allergy-tested, and free of phthalates, sulfates, dyes, parabens, and fragrances.

*with regular use

Key Features & Benefits

Helps Eliminate Dandruff Symptoms

Reduces up to 100% of visible flakes, plus helps with itching and irritation*

*With regular use as a system

Leaves Hair Feeling Soft and Nourished

Hair feels healthy and soft after use

Does Not Disrupt the Scalp Barrier

Gently cleanses the scalp and hair, removing buildup without stripping away moisture

Suitable for All Hair Types

Can be used on all hair types and curl patterns, as well as color-treated hair

Key Ingredients

1% Pyrithione Zinc

An active ingredient that helps eliminate flakes and reduce itching and irritation.

Hyaluronic Acid

A naturally-occurring substance that plays a key role in maintaining skin's moisture balance.

Ceramides

A key component of your skin barrier, which is essential for keeping moisture in and harmful elements out.

Niacinamide

A form of vitamin B3, which helps calm skin.

Tips

Avoid direct contact with eyes. If contact occurs, rinse thoroughly with water.

Frequently Asked Questions

HOW DOES 2-IN-1 SHAMPOO AND CONDITIONER WORK?

With most traditional shampoos and conditioners, like CeraVe's Gentle Hydrating Shampoo and Conditioner, you apply the shampoo, rinse, apply the conditioner, and rinse again. With a 2-in-1 formula, you apply just one product.

CAN I USE 2-IN-1 SHAMPOO AND CONDITIONER EVERY DAY?

You can use 2-in-1 shampoo and conditioner every day. In fact, CeraVe's 2-in-1 Anti-Dandruff Hydrating Shampoo and Conditioner is formulated to be suitable for daily use. If you don't wash your hair every day, you'll want to use it at least twice a week (or as directed by a doctor) for the best results.

CAN YOU MIX SHAMPOO AND CONDITIONER TO MAKE

CAN YOU MIX SHAMPOO AND CONDITIONER TO MAKE A 2-IN-1?

We don't recommend creating your own 2-in-1 formula by mixing shampoo and conditioner together. Individual products have distinct formulations and may behave differently when combined. Instead of attempting a DIY, try our 2-in-1 Anti-Dandruff Hydrating Shampoo and Conditioner, which was developed with dermatologists and has been clinically tested.

CAN I USE CONDITIONER AFTER USING 2-IN-1 SHAMPOO AND CONDITIONER?

The beauty of a 2-in-1 product is that you don't need to use a separate shampoo and conditioner. Apply the 2-in-1, rinse it out, then apply any other haircare products (leave-in conditioner, hair oil, et cetera).

CAN I USE A 2-IN-1 SHAMPOO ON COLOR-TREATED HAIR?

Whether you can use a 2-in-1 on your color-treated hair will depend on the specific product. CeraVe 2-in-1 Anti-Dandruff Hydrating Shampoo and Conditioner is a great pick that's gentle and suitable for colored hair.

IS CERAVE 2-IN-1 ANTI-DANDRUFF SHAMPOO AND CONDITIONER SULFATE-FREE?

Our anti-dandruff shampoo and conditioner is sulfate-free, not to mention paraben-free, fragrance-free, and MIT-free. The same is true for all CeraVe haircare products, including the CeraVe Anti-Dandruff Hydrating Shampoo and CeraVe Anti-Dandruff Hydrating Conditioner.

Very moisturizing

tylerb50
3 hours ago

This shampoo leaves my hair very soft and conditioned. You can tell it moisturizes the hair very well compared to other brands. It seems to reduce static and frizz and most of all I have no flakes or dandruff in my hair at all after using it.
